

**PERMISSION TO TRESPASS**

Dear \_\_\_\_\_ (Adjoining Lot Owner)

\_\_\_\_\_ (Contractor), Tennessee general contractor # \_\_\_\_\_, has been contracted by us to build a home in Lowe's Ferry near your Lot. While we strive to create a beautiful home with minimal impact to the neighbors, occasionally situations arise that require us to access the property from adjacent lots. It is never our intent to do that, but there are times when that access is necessary. In addition, there are times that we may have to put materials on near by lots temporarily in order to complete the project, or provide parking for subcontractors, etc.

I/we \_\_\_\_\_ (LF Owner/Lot # \_\_) and \_\_\_\_\_ (Owner's Contractor) are asking permission from you, the adjoining Lot Owner, to grant access to your Lot should the need arise. We will make every effort to not alter any part of your Lot or cause any damage, however, should that happen, we will restore it to its previous state. Additionally, should a need arise that would require modifications to your Lot, i.e. removal of a tree or rock for access, no work will be done until you, the adjoining Lot Owner, are notified and a meeting is set-up at the lot to discuss any possible alterations, if any. You may reach me/us at any time at \_\_\_\_\_ (phone) or by e-mail at \_\_\_\_\_.

Thank you for your consideration and support.
